I have completed 45 days training in Javascript from Prabhu computers Faridabad in June-July 2015.

SKILLS

Web Technologies:

HTML, CSS, Bootstrap, Javascript, React.js, Node.js, Express.js, MaterialUI, Tailwind

API Testing:

Postman, Thunder Client

Database:

MY SQL, MongoDB

PROJECTS

Current Weather App

Description: Developed a responsive web application that displays current weather information using React.js and the OpenWeatherMap API. <https://current-weather-app-by-reactjs.netlify.app/>

Tic-Tac-Toe Game

Description: Created a classic tic-tac-toe game with React.js, allowing users to play with each other. <https://tictactoe-game-by-reactjs.netlify.app/>

Drum Kit

Description: Designed an interactive drumkit using HTML, CSS, and JavaScript, where users can play different drum sounds by pressing corresponding keys. <https://drumkit-using-by-javascript.netlify.app/>

Todo App

Description: Built a simple todo list application with React.js, enabling users to add and delete tasks.
<https://todo-app-created-by-reactjs.netlify.app/>

Calculator

Description: Implemented a basic calculator application using React.js, allowing users to perform arithmetic operations. <https://calculator-using-by-reactjs.netlify.app/>

Dark-Light Mode Theme

Description: Developed a web application that switches between dark and light themes using React.js, providing users with a customizable viewing experience.
<https://dark-light-mode-reactjs.netlify.app/>

Signup-login Authentication

Description: Developed a robust sign-up and login system for a web application using modern web technologies. The system included features for user registration, authentication, and session management, ensuring secure access to the application.

Technologies Used:

Frontend: React, HTML, CSS, JavaScript

Backend: Node.js, Express.js

Database: MongoDB

Authentication: JWT (JSON Web Token), bcrypt

HTTP Client: Axios

Version Control: Git, GitHub

<https://signup-login-authentication-rust.vercel.app/>

My Portfolio

Description: Personal portfolio website showcasing projects and skills using React.js for dynamic content presentation. <https://sohini-portfolio.netlify.app/>

Education-App

Description: Developed a comprehensive education application using React.js.
<https://education-app-reactjs.netlify.app/>
